Statement of Significance

Last updated on - April 4, 2002

The ports and harbours buoy shed concrete slab is a remnant of the original pilot's coal shed and is associated with the pilot service. The site is used by local boatbuilders as a hard during boat maintenance. Medium significance.

Interpretation of Site	Concrete slab floor foundation of buoy shed. A buoy shed belonging to the ports and harbours dept was built here and appears on a plan produced by the public works dept. In 1973. The site was first used as a coal depot shed for the Port Phillip pilots, and was probably supplied by the fishermen's tramway link to the railway station.
Other Names	PORTS AND HARBOURS BUOY SHED, PORT PHILLIP SEA PILOTS COAL SHED,
Hermes Number	12581
