Statement of Significance

Last updated on -

THE SITE IS THE ONLY CURVED LONG PIER IN THE GIPPSLAND REGION.

Interpretation
of Site

THE SITE APPEARS TO HAVE BEEN BUILT IN A NUMBER OF PHASES, POSSIBLY THREE AND IS LARGELY INTACT FOR MOST ITS LENGTH. THE PIER HAS SUFFERED A FIRE ON ITS OUTER EXTREMITIES BUT THESE COULD NOT BE EXAMINED DUE TO ACCESS RESTRICTIONS. THE PIER IS OF VERY ROBUST CONSTRUCTION AND IS LIKELY TO HAVE SUBSTANTIAL ARCHAEOLOGICAL DEPOSITS AT THE LANDWARD ABUTMENTS AND UP TO 25METRES AROUND THE PIER STRUCTURE, ESPECIALLY ON THE 2/3 OF THE SHOREWARDS END OF THE PIER WHICH DOES NOT APPEAR TO HAVE BEEN DREDGED.
