History

This station was opened on 18th October 1882 and Burnt Creek Wood Siding. A passenger platform was later

added to the up side of the railway line (Turton 1973:36), with a goods shed and sheep yards located on down side. The name was changed to Burnt Creek on 3rd January 1883 before becoming Locksley on 5th December 1904. In 1898 the railway station was destroyed by fire and a new platform and buildings were built within a year (Houston 1988:7). Track alterations were made in 1916 to change wide S-curves to the current layout. The station closed to passengers 1st April 1973. In 1977 the station was closed to all traffic and both the up and down end connections were removed. (Waught 1989:13).

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
