## Statement of Significance

Last updated on -

HO264 Balwyn Road Residential Precinct, Canterbury

Reference - *Balwyn Road Residential Precinct, Canterbury: Stage 2 Heritage Precinct Review* (August 2006)

The Balwyn Road Residential Precinct is of historic significance because the pattern of development reflects that of Boroondara generally. In much of Boroondara one or two periods might be represented in any one precinct, however in the Balwyn Road Residential Precinct all periods are nearly equally represented. As such, the

precinct is a microcosm of the broad sweep of development across the City. The relative consistency in the allotment width and/or size across the different phases of development serves to unify the precinct.

There are historical associations with several eminent families (Danks, Goldings, Marfleets, McAlpins, etc). Of further interest is the profile that some residents have had at a broader level (either State, national or international) and the manifold connections between various residents within the precinct and the City of Boroondara.

The Balwyn Road Residential Precinct is of aesthetic significance for the many high quality buildings, some of which are of individual significance at the broader level, and others that are generally good examples of their architectural style. The buildings are remarkably intact to their period of construction and have been well maintained. There has been limited change of building stock. A high proportion of the buildings have been architect designed. Although there are a range of styles evident, there is a consistency in scale and setbacks.

The extensive and well maintained landscaping both to the street (with trees and wide reservations) and the private gardens provides a level of cohesion. One of the gardens (no. 17) is a rare example of a late nineteenth century intact suburban garden. In addition, some of the early road and paving infrastructure is intact.

## Physical Description 1

This single storey red brick Queen Anne style house is partly obscured by the well-established garden. It has a large terracotta tiled hip roof with gables at either end of the facade. The roof has decorative terracotta ridge capping and finials, as well as high brick chimneys with corbelled caps. There are bay windows with highlight panels below the rendered and timbered gable ends, the northern one also having brackets with rising sun motifs. The central porch has semi-circular timber detailing.

The height of the front fence has been raised by increasing the height of the red brick piers and installing timber panels between the piers.
