Physical Description 1

This is a simple brick Gothic cottage of asymmetrical form with perforated barge boards of an Elizabethan design. Within the gable is a recessed name or date plate in the form of a triangle with convex sides. Below this is an equal sided bay window under a low pitched segmental roof, with a very delicate decorative eaves trim.

There have been timber and brick additions to the rear. The original front section is of great interest as an early cottage designed by an architect for his own use.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
