Statement of Significance

Last updated on -

The house at 189 Auburn Road, Hawthorn, is of local historical and architectural significance as a fine and relatively externally intact Victorian villa which displays all the hallmarks of the mode, including richly patterned polychrome brickwork, bracketed hipped slate roof, and heavy cast iron verandah. While not necessarily an uncommon type in Boroondara, 189 Auburn Road, Hawthorn is an elegant and assured composition featuring a rigorous application of polychrome patterned brickwork and fine decorative features. It is enhanced by its

grouping with the matching villas at 191 and 193 Auburn Road, the three sharing a high level of integrity and fine detailing.

Physical Description 1

No 189 Auburn Road, Hawthorn, is one of three essentially identical large single-storey double-fronted Victorian villas constructed as a group. The hipped roof is clad with slate and features bracketed eaves and a pair of polychrome brick chimneys with moulded caps. Of Hawthorn brick construction, the essentially symmetrical facade displays rigorous polychrome patterning. A central entrance contains a panelled timber door with glazed surrounds and is flanked by two paired window openings with timber-framed double-hung sashes. The facade and south elevation are screened by a return verandah with ogee corrugated galvanised steel roof, cast iron Corinthian columns, frieze and brackets and diaper-pattern marble floor. The verandah return is terminated by a projecting bay and provides access to a side entrance.

The frontage has a non-original picket fence and gates and contemporary, yet sympathetic, landscape. It would appear that rear alterations and additions have been carried out, however the house appears externally intact when viewed from the street.[i]
