Statement of Significance

Last updated on - May 5, 1999

Melaleuka was designed by Geelong architects, Snell and Prowse and built in 1854 for William Noble and extended several times at various stages, the most recent being in 1994-95. The single storey house is constructed of rendered brick with restrained detailing of Victorian Regency styling. The building is distinctive for its quoin work, unusual paired eaves brackets, and French windows with timber jalousies.

Melaleuka is of architectural and historical significance to Victoria.

The house is of architectural significance for its use of the Victorian Regency style that is commonly found in New South Wales and Tasmania. Examples in Victoria are relatively rare, most being two storeyed with verandahs. Melaleuka is also important as a relatively intact example of a house layout from this period.

Melaleuka is of historic significance with its association with Edward Snell, a prominent engineer and architect, who during the 1850's worked in conjunction with Edward Prowse. Together and individually they were responsible for several major works in the Geelong region.

Permit Exemptions

General Exemptions:

General exemptions apply to all places and objects included in the Victorian Heritage Register (VHR). General exemptions have been designed to allow everyday activities, maintenance and changes to your property, which don't harm its cultural heritage significance, to proceed without the need to obtain approvals under the Heritage Act 2017.

Places of worship: In some circumstances, you can alter a place of worship to accommodate religious practices without a permit, but you must [notify](#) the Executive Director of Heritage Victoria before you start the works or activities at least 20 business days before the works or activities are to commence.

Subdivision/consolidation: Permit exemptions exist for some subdivisions and consolidations. If the subdivision or

consolidation is in accordance with a planning permit granted under Part 4 of the *Planning and Environment Act 1987* and the application for the planning permit was referred to the Executive Director of Heritage Victoria as a determining referral authority, a permit is not required.

Specific exemptions may also apply to your registered place or object. If applicable, these are listed below. Specific exemptions are tailored to the conservation and management needs of an individual registered place or object and set out works and activities that are exempt from the requirements of a permit. Specific exemptions prevail if they conflict with general exemptions.

Find out more about heritage permit exemptions [here](#).
