Heritage Listing

Greater Bendigo City

Statement of Significance

Last updated on -

The site defines the location of one of the earliest and more permanent shallow alluvial workings on Bendigo beyond Bendigo Creek itself (criterion A) and marks out the main line of alluvium which was worked northwards from Myer's Flat to Sebastian and beyond (criterion C).

Heritage Study/Consultant	Greater Bendigo - Marong Heritage Study 1999, Andrew Ward and Associates, 1999;
Construction dates	1852,
Hermes Number	198123
Property Number	

Physical Description 1

A band of shallow alluvial sinkings about 10 metres wide extending north-northwest across Leichardt Road for about one kilometre. The mounds of mullock are about one metre high.

Physical Description 2

The area is bounded by Leichardt Road on the south, Myer's Creek on the east, Quinns Road West on the north and freehold property boundaries on the west.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
