Statement of Significance

Last updated on - November 12, 1999

The Port Melbourne Naval Drill Hall was built in 1912 to the design of Commonwealth Department of Works architect JS Murdoch, and is one of the first major buildings constructed for the newly formed Royal Australian Navy. The drill hall adjoins the former Sandridge Post Office which was built in 1862 to the design of Victorian Public Works Department architect JJ Clark by builders Griffiths and Co. The design, apart from being executed in brick rather than bluestone, is identical to the Kilmore Post Office (HR1190) usually attributed to Henry Williams but possibly also by Clark. The former post and telegraph office was transferred to the Commonwealth on Federation. The building was adapted for use as naval offices in 1911 on the completion of a new post office further along Bay Street. The former post office is a distinguished Italianate design in tri-chrome brickwork and has had several reasonably sympathetic additions and alterations to adapt it for office use. The naval drill hall is a fine example of Edwardian Free Classical architecture distinguished by an assured handling of massing and materials using rough stone plinths, shaped and plain red bricks, and dressed sandstone in the English Arts and Crafts tradition.

The building is unusual in the context of other militia drill halls of the period which were typically constructed of timber and corrugated iron. It is more like Murdoch's other naval buildings at HMAS Cerberus at Crib Point and the former Royal Australian Field Artillery Barracks at Maribyrnong (HR1098). The naval drill hall was used as a recruiting centre in both World Wars and since the demolition of the nearby HMAS Lonsdale and the Victualling Stores is the last remaining place in Port Melbourne with naval links.

The Naval Drill Hall and Former Post Office Port Melbourne are historically and architecturally important to the State of Victoria.

The Naval Drill Hall and Former Post Office are historically important for their long associations with naval training in Victoria. Port Melbourne, along with Williamstown, is historically important in the development of the Royal Australian Navy. Victoria had the most powerful and best organised of the colonial naval forces at Federation, and Port Melbourne was the home of naval militia training. After Federation the continuing naval importance of Port Melbourne was recognised by the construction of the drill hall. The significance of the drill hall is accentuated by the high quality of its design and materials which were unusual in the militia context of the period. The Naval Drill Hall and Former Post Office are historically important as the last remaining tangible link with naval history in Port Melbourne.

The Naval Drill Hall is architecturally significant as an important Victorian design of Commonwealth architect John Smith Murdoch whose nationally important works include Old Parliament House and Yarralumla Canberra, HMAS Cerberus Crib Point, RAAF Point Cook and the former High Court 450 Little Bourke Street and the former Mail Exchange Spencer Street Melbourne. Former Post Office is architecturally significant as a design of noted Victorian Public Works architect John James Clark whose most famous work in a long and distinguished career was the Old Treasury building.

Permit Exemptions

General Exemptions:

General exemptions apply to all places and objects included in the Victorian Heritage Register (VHR). General exemptions have been designed to allow everyday activities, maintenance and changes to your property, which don't harm its cultural heritage significance, to proceed without the need to obtain approvals under the Heritage Act 2017.

Places of worship: In some circumstances, you can alter a place of worship to accommodate religious practices without a permit, but you must **notify** the Executive Director of Heritage Victoria before you start the works or activities at least 20 business days before the works or activities are to commence.

Subdivision/consolidation: Permit exemptions exist for some subdivisions and consolidations. If the subdivision or consolidation is in accordance with a planning permit granted under Part 4 of the *Planning and Environment Act 1987* and the application for the planning permit was referred to the Executive Director of Heritage Victoria as a determining referral authority, a permit is not required.

Specific exemptions may also apply to your registered place or object. If applicable, these are listed below. Specific exemptions are tailored to the conservation and management needs of an individual registered place or object and set out works and activities that are exempt from the requirements of a permit. Specific exemptions prevail if they conflict with general exemptions.

Find out more about heritage permit exemptions [here](#).

Specific Exemptions:

EXEMPTIONS FROM PERMITS:

(Classes of works or activities which may be undertaken without a permit under Part 4 of the Heritage Act 1995)

General Conditions:

All exempted alterations are to be planned and carried out in a manner which prevents damage to the fabric of the registered place or object.

Should it become apparent during further inspection or the carrying out of alterations that original or previously hidden or inaccessible details of the place or object are revealed which relate to the significance of the place or object, then the exemption covering such alteration shall cease and the Executive Director shall be notified as soon as possible.

If there is a conservation policy and plan approved by the Executive Director, all works shall be in accordance with it (see below).

Nothing in this declaration prevents the Executive Director from amending or rescinding all or any of the permit exemptions.

Nothing in this declaration exempts owners or their agents from the responsibility to seek relevant planning or building permits from the responsible authority where applicable.

No permits are required for works which are in accordance with the conservation recommendations stipulated in pages 110-123 of Former Post Office and Naval Drill Hall, Port Melbourne, Victoria: Charge of Annuity Report prepared for the Department of Administrative Services Property Group by Australian Construction Services, Department of Administrative Services Heritage and Environment Section, Vic/Tas Region, 1988. (Authors: Ivar Nelsen, Patrick Miller and Terry Sawyer)

NOTICE OF REGISTRATION

As Executive Director for the purpose of the Heritage Act, I give notice under Section 46 that the Victorian Heritage Register is amended by including the Heritage Register Number 1378 in the category described as a Heritage Place only:

Naval Drill Hall and Former Post Office, 40 Bay Street, Port Melbourne, Port Phillip City Council.

EXTENT:

1. All of the buildings marked B-1 (Naval Drill Hall) and B-2 (Former Post Office) on Diagram 607496 held by the Executive Director.
2. All of the land marked L-1 on Diagram 607496 held by the Executive Director, being all of the land described in Certificates of Title Volume 5833, Folio 505 and Volume 3714, Folio 771.

Dated 6 November 1997

RAY TONKIN

Executive Director

[Victoria Government Gazette No. G48 4 December 1997 p.3319]

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
