Statement of Significance

Last updated on - January 1, 2008

Brunswick Railway Station is of local historical and architectural significance. The station is a substantially intact example of a relatively ornate late 19th century railway building which is an important heritage element in central Brunswick.

Heritage Study/Consultant	Moreland - Keeping Brunswick's heritage: A Report on the Review of the Brunswick Conservation Study, Context Pty Ltd, 1990; Moreland - City of Moreland Heritage Review, Allen Lovell and Associates, 1999;

Property Number	

Physical Description 1

Brunswick Railway Station (east) is a single storey building. Walls are of red brick with a bluestone base, with moulded string course and dressings to openings rendered. The building has a hipped corrugated iron roof with bracketed eaves. On the east elevation, a parapeted gable with rendered copings and delicate iron finial has a trefoil opening within a circular moulding above the main pointed arched doorway. The west (platform) elevation has a wide curved-profile verandah with cast iron columns, corrugated iron roof and latticed end panels.

All the window openings have been bricked up.

Key Architectural Elements: symmetrical red brick building with rendered dressings
hipped and gabled corrugated iron roof with bracketed eaves
wide cast iron verandah to platform

Conservation Guidelines: reinstate original window openings

Comparative Examples: Jewell Railway Station, Brunswick
Moreland Railway Station, Coburg
Coburg Railway Station, Coburg

Principal Historic Themes: significant phases in the development of towns and suburbs; 19th century speculative building activity
significant phases in the development of towns and suburbs (urban settlement); 19th century speculative subdivision patterns
early 20th century suburban
