Physical Description 1

The house is a fine example of a Victorian-style featuring generous windows with sidelights complementing those of the central door. The straight hip roofed verandah displays delicate cast iron lacework. The brickwork uses stretcher courses, indicating cavity brick walls, and confirming the dating of the building. There have been several additions over the years to rear sections of the house which do not detract from the original part. The grounds with orchard plantings on the slopes of the hill in front of the house have landscape value (1). The house remains on a large rural allotment of approximately 43.7 hectares and retains its long entry drive.
