T11718 Cedrus atlantica f. glauca

Location

Glenormiston College, Glenormiston Road, GLENORMISTON SOUTH VIC 3265 - Property No T11718

Municipality

CORANGAMITE SHIRE

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 18, 2004

Outstanding Size

Located at the rear of the sports building, this fine example of the species contributes to the collection of trees in this historic garden. This cedar is notable for its large trunk circumference. It has suffered some storm damage and would benefit from a tree management program. Other notable trees surveyed by the Royal Botanic Gardens include Cupressus torulosa, Pinus pinaster (courtyard), Arbutus unedo and the rare Jubaea chilensis.

Measurements: 16/09/1990

Spread (m): 25.8
