Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 16, 2008

Historic cemetery

An impressive stand of Italian Cypressess in an important cemetery. Their upright growth, dark green foliage and large size contribute to the landscape and represent a species which was commonly planted in Victorian cemeteries in the 1800s. Planting occur at the entrance, along the main drive and scattered amongst the graves.

Measurements: 10/1986 entrance specimen east side
