Hermes Number 8290

Property Number

History

Heritage Inventory History of Site: According to the local miner, Rod Kirby, the alluvial mining at this site was done by Ernie and Bill Pfeiffer in the 1950s or 60s. The 'blocking-out' of the ground is identical to a technique which is described in a prospecting book that was published by Ion L. Idriess in 1931. Idriess's book, *Prospecting for Gold*, was re-published five times before 1950.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
