## Statement of Significance

Last updated on - February 9, 2000

Marathon, constructed in 1914, is significant because of the relationship between house and garden. Designed by the architectural partnership Butler and Bradshaw, with substantial extensions designed by Walter and Richard Butler in 1924, it is an interesting example of a large beachside residence designed in the Arts and Crafts manner. The garden, also designed by Walter Butler, with its formal terraces, axial layout, structures, stairs, walls, paths, pergolas and ornaments reflects the Arts and Crafts philosophy of garden design, and of creating outdoor "rooms". It is a fine example of Butler's garden design, having the grandest plan and being the largest and most intact surviving work. Marathon has a strong association with the Grimwade family, who were prominent in Melbourne commercial, social and intellectual circles. Originally built for them as their summer residence, it was used more recently as a permanent residence. It remained in the Grimwade family ownership until mid 1992.

## Permit Exemptions

### General Exemptions:

General exemptions apply to all places and objects included in the Victorian Heritage Register (VHR). General exemptions have been designed to allow everyday activities, maintenance and changes to your property, which don't harm its cultural heritage significance, to proceed without the need to obtain approvals under the Heritage Act 2017.

Places of worship: In some circumstances, you can alter a place of worship to accommodate religious practices without a permit, but you must [notify](#) the Executive Director of Heritage Victoria before you start the works or activities at least 20 business days before the works or activities are to commence.

Subdivision/consolidation: Permit exemptions exist for some subdivisions and consolidations. If the subdivision or consolidation is in accordance with a planning permit granted under Part 4 of the *Planning and Environment Act 1987* and the application for the planning permit was referred to the Executive Director of Heritage Victoria as a determining referral authority, a permit is not required.

Specific exemptions may also apply to your registered place or object. If applicable, these are listed below. Specific exemptions are tailored to the conservation and management needs of an individual registered place or object and set out works and activities that are exempt from the requirements of a permit. Specific exemptions prevail if they conflict with general exemptions.

Find out more about heritage permit exemptions [here](#).
